

Stainless Steel Window & Door Mesh is part of your solution for stopping insects, intruders & embers

 Superior Quality
THE LASTING DECISION

LASTING STRENGTH & PROTECTION FROM INSECTS,
INTRUDERS & EMBERS FOR YOUR WINDOWS & DOORS

Stainless Steel Window & Door Mesh keeps insects, intruders and embers out whilst letting the breeze in and allowing visibility.

Our range, *flexi*, *tough*, *extreme* & *ultra extreme* is designed to suit any window & door application. Whether it be to keep pesky insects out or provide the protection of security mesh keeping families safe. With the added benefit of ember protection in rural areas.

Product Specifications

We stock an extensive range of roll widths and sheet sizes in black powder coated and uncoated. The black powder coated mesh (contains UV stabilizer) and provides excellent visibility.

Care & Maintenance

Regular cleaning is recommended to prevent the build-up of contaminants such as dirt and salt. When using mill finish (uncoated) stainless steel it is recommended that the mesh is pickled, passivated and electropolished to minimise tea staining. Further information available at sswm.com.au on our CARE page.
